Hull & East Riding FERTILITY

Example of a typical treatment cycle of IVF

Below is an example of what you can expect to pay for a full cycle of IVF, based on a typical cycle of IVF using your own eggs and your partner's sperm. This excludes any supplementary costs associated with alternative/additional services such as ICSI, donor sperm and donor. Additional fees relating to alternative treatment plans are detailed on the Private Patient Pricing Guide.

Pre-treatment Investigations:

New Patient – Pre-treatment Package	515
Pre-assessment Pelvic Scan	Included in above
AMH blood investigation (all other blood investigations are included within the initial consultation)	Included in above
Full semen evaluation	Included in above
Pre-treatment investigations – Male (Infection Screening, Chlamydia & Gonorrhoea)	270
Pre-treatment investigations – Female (Infection Screening, Chlamydia & Gonorrhoea, Prolactin, TSH, Rubella)	445
Typical Pre-Treatment Costs	**£ 1,230**

Treatment Costs:

IVF Treatment*	4,700
Embryo Glue (optional)	250
Embryo Triple Select® (optional)	600
Treatment drugs/medication (based on patient averages)	1,500
Typical Treatment Costs	**£7,050**

Total Typical Cycle Cost for a New Patient undergoing an IVF treatment cycle:

Total Typical Treatment Costs**	**£8,280**

* This treatment fee includes: HFEA fee, treatment planning with one of our fertility nurses, mock embryo transfer (if required), monitoring scans, in-treatment blood tests, sperm preparation, egg collection (with conscious sedation or local anaesthetic), embryo creation, culture to blastocyst and fresh embryo transfer, pregnancy scan, post-treatment review consultation, up to 3 support counselling sessions and 24/7 nurse on call support.

**Please note that these costs are based on a typical new patient IVF cycle; all patients have individual circumstances which may require additional investigations and/or procedures, equally patients may have already had recent, in date, investigations that do not need repeating. A fully costed treatment plan will be provided after investigations and a consultation have taken place.
